

empowering people in care

#CareDay20

**Taking place on Friday the 21st of
February**

Care Day is the world's largest celebration of the rights of Children, Young People and adults who have care experience.

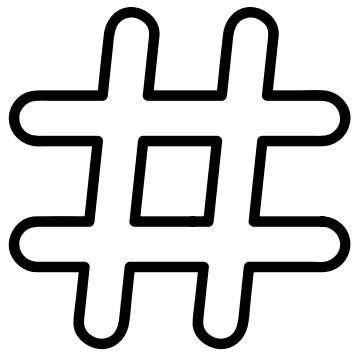

Did you know that there are just over 6,000 children and young people currently in care in Ireland?

We invite you to celebrate them as children and young people regardless of their circumstances.

We are asking every Child, Young Person and Adult with care experience, along with those who care for and support them to:

Get Vocal, Get Social, and Get Together in Celebration of our Care-Experienced Community!!!

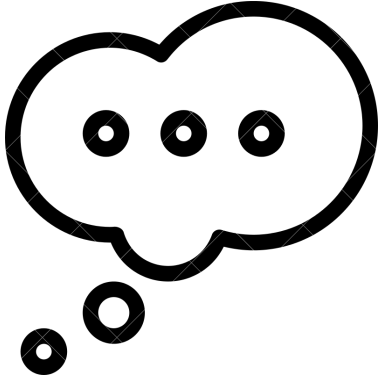

#CareDay20

- Show your support on social media by using the hash tags #CareDay20 and #Reimagining

- Organise an event or activity with children in your care to celebrate them for the amazing, talented and resilient people that they are e.g. bake sale, cinema night, dinner, art/ dancing/ music class.

- Hold a discussion with staff and young people about children in care and your positive memories together.

- Check out our website www.careday.org that will show organisations all over the world supporting Care Day.

- Let us know what you will be doing to celebrate Care Day by e-mailing: suzanneobrien@epiconline.ie or andreameyer@epiconline.ie
